Weekly Learning Targets

Math:

- I can understand and classify rational numbers.
- I can express rational numbers by using terminating and repeating decimals.
- I can place natural, whole, integers, and rational numbers on a number line

Science:

- I can describe the physical properties, the location, and the movement of the sun, planets, Galilean moons, meteors and comets.

ELA:

- I can gather important details and determine the main idea of an excerpt from the text
- I can understand how sub titles help me understand a text
- I can understand an author's style and dialect when reading folktales
- I can write a personal narrative with supporting details.

World Culture:

- I can identify the ways in which people contribute to the economy of the U.S.
- I can describe how people work to balance conservation with the use of natural resources.
